North Fish – fish, seafood, veggie

At North Fish we specialise exclusively in fish and seafood dishes which are prepared daily from scratch at our restaurants. North Fish draws inspiration from the best, and its restaurants and its activities make reference to Scandinavia, a place which, like North Fish, appreciates quality, perfection and an active lifestyle. What makes North Fish different from other restaurants? Apart from the concentration on a single specialisation, the good price principle - we prove that good food doesn't have to cost a lot - and the unique selling system. EAT AS MUCH AS YOU WANT - you decide about the extras, about what you eat and how much. North Fish is a healthy choice at a good price, an exceptional product available straight away. The North Fish brand is created by people who are experts in the field of fish and seafood, and the main values in our work are: FRESHNESS, QUALITY, HEALTH, GOOD PRICE.

In our menu you can find lunch dishes with grilled and breaded fish such as Norwegian salmon, Atlantic cod, tuna, plaice, pollock, haddock, but also burgers in a beer dough bun with the addition of olive oil, sprinkled with semolina. We also have crispy tortillas (with salmon, tuna, halloumi cheese), breaded shrimps and squids and really tasty soups.

North Fish Story

The story of North Fish began in the spring of 2002, when a passion for good and healthy food gave birth to a chain of seafood restaurants. In hindsight the goal of North Fish was nearly impossible, but we did not know that back then. Which is probably why we have made it this far. Our first restaurant opened as early as the autumn of 2002 in Poland.

Our concept of offering healthy and tasty food based on Western European standards, Scandinavian inspirations and an openness to the flavours of the world is a perfect fit with current trends. In addition to fish and other seafood, we are focusing increasingly on vegetarian dishes, a natural extension to the North Fish menu. We pay special attention to the quality and origin of our resources. Controlled fisheries, ecological cultivation, quality transport and travel distance are some of the things we consider.

Times change, but our passion remains the same. Over the nearly 20 years in business we have opened more than 50 restaurants in Poland. Thanks to nearly two decades of our experience, we have become number one in the Polish food industry segment. In 2019 we made an enormous step towards expanding abroad thanks to North Food Ltd.

We acquired our first 2 locations in Great Britain. And not just any locations – they are strictly top-tier, including Europe's number one location – Westfield Stratford City.
